

Application is now open for Research Infrastructure Commercialization Academy 2022!

Are you wonder how to provide hands-on innovation support to local or regional stakeholder communities, notably startups and SMEs? Or maybe you are interested in how to build cross border collaboration and draw the attention of key agrifood industry players to your research infrastructure capacities and opportunities? Then the Research Infrastructure Commercialization Academy is for you!

Research Infrastructure Commercialisation Academy is a capacity building program funded by European Institute of Innovation and Technology (EIT) Food within HEI Initiative and designed to support aspiring managers and scientists working in Lodz University of Technology's publicly funded research infrastructure related to the agrifood sector. It provides participants with highly interactive training and dedicated support by agrifood research and innovation management experts based on best commercialisation practices, tools and techniques to enhance their research infrastructure's commercial use and visibility, identify potential partners and stimulate the science-industry collaboration. It aims to equip participants with the necessary skills to provide innovation support to local or regional stakeholder communities, notably startups and SMEs, build cross border collaboration, and draw the attention of the national and international key agrifood industry players to their research infrastructure capacities and opportunities.

Who can apply

The Research Infrastructure Commercialization Academy is focused on supporting academic and non-academic staff of Lodz University of Technology (e.g. scientist, manager/director, specialist/technician, researcher, research assistant, commercialisation specialist, IP specialist, etc.) involved in management and commercialisation of research infrastructure.

The research infrastructure must fall under one of EIT Food's focus areas, including targeted nutrition, sustainable aquaculture, sustainable agriculture, alternative proteins, digital transformation of traceability, and circular food systems.

How it works

The program is comprised of **7 days** of **online classes**, **workshops** and **mentoring sessions** followed by several **assignments** spread across **two months** and delivered by InterHEI partners' experts in agrifood research and innovation management, providing their expertise and experience in research infrastructures commercialisation and innovation management relevant to the contemporary agrifood system. It is highly interactive and features various learning methods (e.g., lectures, presentations, team assignments, Q&A) incorporated with mentoring sessions. The program ends with each team presentation on their research infrastructure commercialisation plan in a final session to InterHEI partners, invited guests, and officials from Lodz University of Technology via online video conference on 29th November 2022 (to be confirmed).

Coordinated by

The Research Infrastructure Commercialization Academy workshops and mentoring sessions will be run by educators, researchers and experts from **University of Warsaw** and **Lodz University of Technology**.

Participants do not pay tuition fee.

For more information, please download the Research Infrastructure Commercialization Academy [Brochure](#) featuring some of aspects of the programme.

Timeline

Research Infrastructure Commercialization Academy will be held online on 18th, 25th, 27th October, 8th, 15th and 22nd of November with a final session on 29th of November 2022 (TBC).

Apply today!

Applications are open from 3rd October till 7th October 2022. For more information on how to apply, please contact Edyta Milewska at edyta.milewska@p.lodz.pl.
