

# WOUND DRESSING

## NEW INNOVATIVE PRODUCT

We developed wound dressing with therapeutic activities.

### Who We Are

- We are research team that find better solutions for humanity.

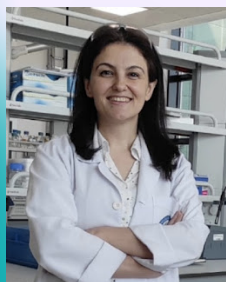

### Our Target

- For diabetic patients who suffer from diabetic wounds

### Our Solution

- We offer totally natural wound dressing product that provides therapeutic activity
- Unlike the other alternatives that have low mechanical strength our product provides mechanical strength and helps to increase healing time

Features	Benefits
Made of natural polymers	Biocompatible
Includes active therapeutic agents	Provides therapeutic activity
Includes nanomaterials	Improves mechanical priorities
Made of natural components	Environmentally friendly
